Mission Dantotsu

Unless you try to do something beyond what you have already mastered, you will never grow.

- Ralph Waldo Emerson

THE DAILY NEWS

NOW ANNOUNCING

IndiZEN 2015 – 6th National Convention on Operational Excellence
17th & 18th February 2015, Pune, India

Convetion Theme:
Sustained Operational Excellence - Key to Long Term Success of 'Make in India'

- Learn from leading Case Studies
- Observe leading practices via Factory Tours
- Grasp leading knowledge via Tutorials
- Inspiring keynote speakers
- Professionals to mingle & interact with

IndiZEN has become one of India's most important annual gatherings of professionals and experts in the Operational Excellence/ Lean/ Kaizen domain.

The objective of this event is to give you an opportunity to Learn, Network, Celebrate & Share the work done by your organization in the domain of Kaizen/ Lean/ Operational Excellence.

This event brings you an inspiring opening & closing keynote speakers, face to face Q&As with India’s leading Operational Excellence (OE) experts.

There are three tracks in this two days event:

Knowledge sessions
Excellence Inside Tours (visit world class facilities/ factories as Seeing is Believing!),
National Case Study Competition

The Professor began his class by holding up a glass with some water in it. He held it up for all to see & asked the students “How much do you think this glass weighs?”

‘50gms!’….. ‘100gms!’ ..... ‘125 gms’ ...the students answered.

“I really don’t know unless I weigh it,” said the professor, “but, my question is: What would happen if I held it up like this for a few minutes?”.....

Nothing’ .....the students said.

‘Ok what would happen if I held it up like this for an hour?’ the professor asked. ‘Your arm would begin to ache’ said one of the students

“You’re right, now what would happen if I held it for a day?”“Your arm could go numb; you might have severe muscle stress & paralysis & have to go to hospital for sure!”..... Ventured another student & all the students laughed.

“Very good. But during all this, did the weight of the glass change?”

Asked the professor.

‘No’.... Was the answer. “Then what caused the arm ache & the muscle stress?”

The students were puzzled. “What should I do now to come out of pain?” asked professor again. “Put the glass down!” said one of the students

“Exactly!” said the professor. Life’s problems are something like this.

Hold it for a few minutes in your head & they seem OK. Think of them for a long time & they begin to ache.

Hold it even longer & they begin to paralyze you. You will not be able to do anything.
It’s important to think of the challenges or problems in your life, But EVEN MORE IMPORTANT is to ‘PUT THEM DOWN’ at the end of every day before you go to sleep...

That way, you are not stressed, you wake up every day fresh & strong & can handle any issue, any challenge that comes your way!

Moral

So, when you start your journey of Continual Improvement, remember friend to ‘PUT THE GLASS DOWN TODAY!’
